

**The Black Pork Company**

“

**Everyone knows Spain has the best pork & ham in the world with our IBERICO pork products and this is something The Black Pork Company wants to take advantage of, in fact, the name of our company, Black Pork, refers exactly to pata negra - our iberico premium ham...**

**Commitment to the flavors of the land. We want to pay tribute to the different premium food products that exist in Spain, like our iberico pork meats, our roasted duroc pork legs, our premium iberico hams, chorizos and salchichón, our Teror chorizo and cheeses from Canary Islands, etc.. taking them to the final consumer through exquisite recipes prepared by our Chefs..**

”

**The Black Pork Company is seeking partnerships with business owners worldwide in the following industries:**

- 1.- Restaurant chain owners & companies / free standing**
- 2.- Supermarkets chains - B2C ( to eat there, for pick up & delivery)**
- 3.- Catering to airlines**
- 4.- Airport & port restaurant businesses**

**Regarding supermarket business The Black Pork Company already started operating last October 2023 in Canary Islands with our first restaurant only for pick up & delivery, in a brand new 500 m2 supermarket in Las Palmas de Gran Canaria - who belongs to the multinational SPAR supermarket chain . As we are already operating inside a well known supermarket chain and taking into account the increase of supermarket food & beverage orders for delivery, we are now in a great position to take advantage of the increase of food delivery orders to supermarkets & restaurants ( in Spain food & beverage orders for delivery to supermarkets accounts to 5.600 millions euros and 1.000 millions euros for restaurant delivery orders, statista 2023).**
